RECEIVED
OCT 31 2003
CORBIN R. DAVIS
CLERK SUPREME COURT

Dear Sirs,

I'm writing this letter on my own behalf but feel that I'm the voice of many of the former coworkers who have passed away due to the hideous disease of asbestosis that has touched so very many lives due to the callous attitudes of many people in big business who ha contaminated so many good, honest workers thru no fault the poor victims too.

I count myself as another victim of these very unscru business practices that has spread far and wide in the lan of the free and the home of so many people who were given a near death sentence also.

Now I am informed that the Michigan Supreme Cour is trying to eliminate all law suits that don't already ha cancer victims so that these companies can get a legal w to avoid the many people they have now killed or will kil in the future. To that I say "Shame on you, the Michig Supreme Court and just hope you can look at yourselv in the mirror for if that happens then you must take lot of the responsibility for all of the misery and heartb

And if that all does come to fruition then I'll never
the I can truly say there is justice in this State at all.
I'm a 58 yr. old man who worked for 28 yrs at a lo
steel mill and gave the company all that I could give
my family's motto was "If the company gives you 8 hours
then give them 8½ hrs too.
As a child living in the North of England I regularly
them of the great Country named America too. Served the
of A. 2 yrs in the U.S. Army and I'm a Vietnam Era
veteran who served quite honorably too. Just seems like a
of the ideals that I always thought America stood for
ceased to fall by the wayside due to a lot of corporate
greed and a lot of money these certain companies have m
been gained thru the blood of a lot of hard working
decent, family living folks too.
Please tell me what I've heard from the law firm th
does represent me in this class action law suit is not tru
I've said my piece and now I'll close for this writ
God help the many working people who have died and wil
die so cruelly in the future also. All we ask for is justice.
