Irene Baker
2204 Boxford St
Trenton, MI 48183-2410

Michigan Supreme Court Clerk
Box 30052, Lansing, Mi. 48909

Gentlemen;

Opposition to Court Rule No. 2003-47

This is my opposition to deny me of my rights to trial by jury regarding asbestos litigations.

My husband Louis C. Baker died July 6 2002 of Mesothelioma.

The corporation responsible for this tragedy was Pennwalt Chemicals (now Elf Atochem) He was employed for 32 years as Hi Lo driver, removing asbestos sheets from Box Cars. This activity in boxcars created a total asbestos snow storm in boxcar.

In all his time the company never checked the condition of their health and did not order X-Rays of lungs of employees. Asbestos is a silent, creeping disease while it invades the lungs. No information was ever provided to employees spelling out the danger of their activity.

I feel I am entitled to my constitutional rights of trial by jury. Until a family loses a loved one, outsiders have no sensitivity to our loss of husbands, fathers and grandfathers. Do not change the rights for my day in court.

Sincerely

Irene M. Baker - wife
