Nov. 17, 2003

Judiciaries;

If I understand it correctly the asbestos industry is attempting to have the law changed by way of "Court Rule" so as those having asbestosis can no longer be heard by a jury. I am against the proposed Court Rule No. 2003-47 as this rule would restrict those who have asbestosis, such as myself, in any litigation that we presently have. If this happens I would have a much more difficult time getting reimbursements for my expenses I have in treating my disease of asbestosis. I ask to not approve Court Rule No. 2003-47 or change the law in anyway. Hold responsible those industries for their careless disregard of harmful material. Thank you.
