To Whom This May Concern,

I am writing this letter to call your attention to the New Court Rule #2003-47.

I Have worked around asbestos for almost forty years of my life, most of it not knowing it was a danger to my Heath. I Hired in at Ford Motor Company in May of 1964, until they became a spinoff, to become Rouge Steel Company in 1989, where I am today. I spent 2 years active duty in the military services, from 1967 to 1969.

CORBIN DAVIS
CLERK OF SUPREME COURT

I Have never smoked, or did any drinking at all. But yet the disease showed up on my EXRAY. It seems Michigan and the Michigan Supreme Court are being used as tools of the

Asbestos Industry, and big ~~bu~~ business to deny working people their Constitutionl Rigths + Jury trials, when Harmed by corporate miscondut.

Thanking back, while working around asbestos, it was about the mid 80's before anyone advised us to use protective breathing masks.

The real crisis in Michiga is the failure of corporations to take responsibility for their bad actions. The Mich. Constitution, as well as the United States Constitution makes it clear that Judges are not to make the law but rather interpert it. Why is the Michigan Supreme Court even considering taking steps that would effectively change the law?

Kindly
Hillard Harris

PS. I Hope This gets Read, and not go to TRASH CAN or SHEADER.
