CORBIN DAVIS
CLERK SUPREME COURT

To Whom it may concern,

Michigan Supreme Court, Rule # 2003-47

My name is Geraldine Hobb, my husband, Wendall Harmon Hobb was killed by asbestos. he suffered sense 1985 with asbestos destroying his lungs; he was 76 yr old when he died.

I don't know if you realize how many people were killed, and are now dying of asbestos poisioning. many women + children are without their Husbands + Fathers.

Please pass a judgement, so that the corporations take responsibility for there bad actions, and not blame the victims of the corporate misconduct. Hold the corporations accountable. Please grant us our constitutional rights to a jury trial. I pray to God, that you will make the right decession, and help us, the people of Michigan, who lost our loved one that died before their time, due to asbestos disease.

Wendall, worked 50 yr working with and around asbestos. he didnt deserve to suffer and die the way he did. How much value do you place on a human life? How or what would you do if it was your loved one who suffered + died cause of asbestos poisioning

Please take this letter to heart, We the people of Michigan needs the help from the Michigan Supreme Court, grant us a right to a Jury trial, and hold the corporations accountable for the ~~my~~ many lives they have taken.

pleas hear our pleaper help

I

Sincerely Geraldine Hobbs
