Dec. 5, 2003

Dear Sir;

I am writing the Supreme Court of Michigan about my concern for Proposed Court Rule No. 2003-47.

First of all I am opposed to it. I am on Oxygen 24 hrs a day. I have poor lung capacity and I have asbestosis. My father died of mesothelioma. I worked with the same products as he did and was exposed to his work clothes all my life. I think I have been wronged by the companies that used these dangerous products in construction. I want justice in court.

I hope the Supreme Court of Michigan votes no on this ruling.

Thank you,
John P. McNamara.
