To the Michigan Supreme Court, Court Rule 2003-47

My name is Patricia Mosley. My husband, Willie, died in Sept. 2003. He died of lung cancer due to his exposure to asbestos at his job in the steel mills.

I believe that my family has a right to a fair trial to decide our case against asbestos companies.

With all of the cases pending in Michigan, and all the homes that have been affected, please allow us to have our day in court.

Thanking you in advance.
