CORBIN DAVIS
CLERK SUPREME COURT

Rule # 2003-47

To Supreme Court Clerk

I am a 69 year old Retiree who worked in and around Ashestos for years, and now I have a hard time Breathing at times some of this I think Came from vocal cord surgery which changed my voice for life, plus during surgery the physician left an object in my wind pipe that almost Cost me my Life. its very odd that I worked the day before surgery and havent been able to work since if I had it to do over again never would I Commital to that operation I was worse off after surgery than I was when I Entered the Hospital, so if it comes to it we need a jury trial to see what can be done about this matter

Thanks for Listening
Lerroy Petty
