Michigan Supreme Court,
Proposed Court Rule No. 2003-47.

The asbestos industry with help from certain Michigan manufacturers want Supreme Court to change the laws of Michigan to protect themselves from lawsuits. These corporations should be held accountable and take responsibility for their actions, such as allowing people to work in an environment that was ruining their health.
We are in opposition to this unconstitutional, illegal and politically motivated effort to deny working people their right to a trial by jury.

RECEIVED

CORBIN DAVIS
CLERK SUPREME COURT

Sincerely,
