Court Rule No 2003-47

Dear Supreme Court Clerk,

I would like to express my feelings on this asbestos ~~litigation~~ litigation.

The Michigan Constitution makes it clear that judges are not to make laws but rather interpret the law.

It seems that Michigan & the Supreme Court are being used as tools of asbestestos industry to deny people their rights to jury trial when harmed by corporate misconduct.

We are working class people and we deserve the right to trial not "Court Rule"

CORBIN DAVIS
CLERK SUPREME COURT

Sincerely,
