To whom this concerns:

I am refering to proposed Court Rule Number 2003-47.

I am an asbestosis sufferer. My symptoms are mild now, but my doctor told me that I could get bronchitis, emphasema or cancer in the future.

All of us who are sufferers did not ask or want this, but we do not want anymore unknowns in the future about the companies getting off the hook.

Do not pass any laws that take our rights to litigation against the companys.

Sincerly yours,

Larry Weir
