To Whom it May Concern Court Rule No. 2003-47

When i was a young man i hired into Great lakes steel's general labor pool. My job was to tear down old furnaces linings. I did not Know that they were packed with asbestos.

Now i'm 52 years old, and can hardly breath. I'm on disability, because of my poor health.

I Thought judges were meant to interpret the law, not make the law for rich companys.

ALL the Working class families will fight the Supreme Courts, If they side with big businesses.

Sincerely

Alan S. Witherson
