APR 28 2004
CORBIN DAVIS
CLERK SUPREME COURT

RE: Supreme Court ADM File 2003-04

This is a letter of great concern in which the direction this State is turning in its affairs! Burdens will be placed upon the illiterate, even the laymen, and upon your children childrens. Changes are a must, but when changes are made for the worst, then no good can come of it. The Motion from Relief of Judgment, the time factor, as if to really eliminate the appeal process. Even learn attorneys are late in processing appeals. Justice is blind, and the scales are not balanced. A system that is mocked by it's own disorder. Your honor is misplaced by regulation. You deny more than you grant, no benefits for the have nots! Soon no mercy at all, what's next? No justice, no honor, no rights. My complaint is simple, nothing is broken, why are you trying to fix something that is not broken. Just out of order! You all are out of order to even consider to make more rules that you don't follow now! More harm than help! Crawford #143333
