RECEIVED
NOV 24 2003
CORBIN R. DAVIS
CLERK SUPREME COURT

Michigan Supreme Court.

Dear Honorable Members

Before you reach a decision to change the Law regarding Court Rule 2003-47, please remember your obligation as judges, that you people do not make the Law, but rather interpret the Law. The Michigan Constitution as well as the United States Constitution clearly explains the separation of different branches of government.

Any industry and-or its allies petitioning the Supreme Court of Michigan to change the Law for their benefit and depriving the Citizens of Michigan their Constitutional right to have a jury hear their case is in strict defiance to our Michigan Constitution.

Big Business with the assistance of uncouth Lawyers, judges, Congressmen Senators and or others, have treated the working class of people in Michigan as "Peons" for their (Big Business) Monetary gains and this is just another attempt to degrade, deject and defeat the Citizens of Michigan.

Frank Carson
