Dear Sir

I am writing in regua to court Rule 2003-47

I am a worker who ha worked with asbestos fo Twenty Eight years and am very much opposed to changing the laws on this matter.

The Michigan Constitution as well as the United States Constitution makes it quite clear that judges are not to make laws but only interpret them. I don't understand why Michigan Supreme court is considering trying to change this law by denying people like me, an asbestos victim a right to a Jury trial
