Sirs:

Regarding = Court Rule #2003-47

Please note that the Michigan Constitution as well as the United States Constitution makes it very clear that judges are not to make the law but rather interpret the law.

Why is the Michigan Supreme Court even considering taking steps that would effectively change the law by denying Michigan asbestos disease victims their right to a jury trial.

Also I'd like to know what are the true facts about asbestos litigation in Michigan? We know in the last 4 years, there has been one asbestos case tried to verdict in the entire state of Michigan - All other cases settle before trial.
