

Position Available
Programmer II
Michigan Court of Appeals
Salary Range \$53,014.32 - \$68,904.00

The Information Systems Department of the Michigan Court of Appeals is currently seeking qualified applicants for the position of Programmer II. This position reports directly to the Systems Manager and its primary responsibilities include:

- Design, develop, test and implement web-based computer programs using integrated development tools to automate specific business processes.
- Gather information from users and other technical staff to determine website or application development needs.
- Assist in project planning and write complex web pages or application programs.
- Build user interface applications and back-end databases using various programming and scripting languages.
- Create functional specifications and prototypes for software projects.
- Assess long-term needs of website or application development and manage related projects.
- Participate in the implementation of work systems and processes, methods, procedures, and performance standards.

EDUCATION AND EXPERIENCE:

Bachelor's degree in computer science, information systems or related technical field is required. Three to five years of programming experience in an object oriented application development, specifically Microsoft ASP.Net, is required. Background in Visual Studio, C#, Microsoft SQL Server, SQL, graphic design and web design using CSS is desirable.

WORK LOCATION:

Michigan Hall of Justice, Lansing, MI. Occasional travel to other Court offices required.

TO APPLY:

E-mail with a cover letter and resume is the preferred method for receiving your information. Please send your cover letter and resume to ruiz-helmicp@courts.mi.gov. If you prefer to mail your cover letter and resume, please send them to:
