Dear Mr. Corbin Davis, et al,

As a registered nurse and a medical malpractice attorney that has been involved on both sides of the medical malpractice 'fence', I write in support of the propositions made by the Michigan Association for Justice, in its well reasoned letter by attorney Barry Gates (dated September 25, 2009 and attached herein). "Justice for all" should equate to all parties being assured that their meritorious claims and/or defenses will not be vaporized by hyper-procedural and often incongruent interpretations of Michigan law. Recollection of what has transpired in our appellate courts over the last ten years should reveal a phenomenal, albeit unnecessary, taxing of litigant and judicial resources.

Please know that I very much appreciate this Court recognizing that this undisputed burden can be remedied.

--
