Thomas P. Boyd
State Court Administrator

MEMORANDUM

DATE: July 13, 2021

TO: Circuit, District, and Municipal Judges
Circuit, District, and Municipal Court Administrators

FROM: Ryan P. Gamby, Management Analyst

SUBJECT: Pretrial Data – Judicial Data Warehouse

Pretrial data from participating courts is now available in the Name Search Application (NSA) of the Judicial Data Warehouse (JDW). The JDW is a web-based application that combines data from nearly all Michigan trial courts into a searchable database. In addition to case history, authorized JDW users can now search a defendant's name and obtain the following pretrial information from criminal cases throughout the state:

- Offense Date
- Arrest Date
- Arraignment Date
- Bond Type
- Bond Amount
- Bond Assessment Date
- Bond Ordered Date
- Bond Posted Date
- Failure to Appear Date
- Bond Forfeiture Date
- Date Released From Jail on Bond

This is the first time that judges and court staff will be able to easily access and review a defendant's pretrial history on cases that originated outside their jurisdiction. Please review pages 49-54 of the JDW User Manual for the data definitions of this new information and the [Implementation Map](#) for a list of courts that are currently contributing pretrial data into the JDW. If you do not have access to the JDW, you may request an account by completing [SCAO Form 78](#) and e-mailing it to JDWaccess@courts.mi.gov.

Please contact me at gambyr@courts.mi.gov if you have any questions.
