Michigan Access Security Matrix (January 2020)

This matrix applies to restricted access records for direct access and authorized web-based application users. It is designed specifically to assist system providers in establishing user groups and access levels and to assign an access level for each user group. The matrix can also be used as a table of contents by clerks of the court to easily locate specific record types with restricted access; details for each record can be located by the item and page number. For policies on access to electronic records at the court and through the court's public website or other web-based portal see Section 2.4 of the Records Management Standards.

- Level A Access: case number, party names, case history (docket) entries, document images, copies available upon payment of reproduction fee (when fee is permitted/applicable)
- Level B Access: limited access to case number, party names, case history (docket) entries, document images viewable upon request; copies available upon payment of reproduction fee (when fee is permitted/applicable)
- Level C Access: no direct access or access through authorized web-based application

Nonpublic and Limited-Access Court Records

Revision September 2019

The following chart lists various court record types to which access is limited by statute, court order, or court rule. It should be used in conjunction with Section 2 of the Michigan Trial Court Records Management Standards. While this chart can help provide guidance on the use of and access to nonpublic, confidential, or sealed records, court staff should review the particular statutes and court rules and, when in doubt, consult with their chief judge on local interpretation. The chart is organized into six categories: A. General, B. Civil and Criminal, C. Friend of the Court, D. Juvenile Code, E. Adoption and Other Family Division, and F. Probate. Each category contains three columns: 1) Record Type and Extent of Limited Access, 2) Maintenance Requirements and Response to Inquiries, and 3) Authorized Access and Other Details.

Notes:

1. The chart contains some statutory references in which the only agency directed to maintain a nonpublic record is the state police. In order to ensure the intent of the statute to restrict access, courts are directed to maintain their records in these instances as nonpublic records. They are nonpublic pursuant to MCR 8.119(D).
2. In some cases, a statute or court rule makes **information** in a case file (rather than the entire file) nonpublic or confidential. For example, the law may prohibit divulging pieces of information or certain documents in or associated with a case file or may make specific pieces of information (e.g., name or address) confidential. When information within or associated with a case file is made nonpublic or confidential, the court shall not disclose that information, either by individual staff members of the court or through publicly accessible information sources, such as indices or registers of actions..
3. The collection, maintenance, and disclosure of social security numbers by courts is governed by Michigan Supreme Court Administrative Order 2006-2, Privacy Policy and Access to Records. MCR 1.109(G)(9) prohibits the court from collecting social security numbers in public documents as of January 1, 2021. Administrative Memorandum 2006-04 provides the procedures courts must follow when providing copies of documents containing social security numbers, as well as remedies available to a party seeking to protect a social security number contained within a publicly filed document.
4. MCR 1.109(G)(9) prohibits the collection, maintenance, and disclosure of protected personal identifying information in publicly filed documents and states that any protected personal identifying information that a court does collect and maintain is nonpublic and shall be collected and maintained in the manner and format prescribed by the State Court Administrative Office. MCR 1.109(G)(10) provides the procedure for redacting protected personal identifying information.
5. If a request is made to view a record that is nonpublic, confidential, or sealed and the individual requesting to view the record is not allowed access under statute or court rule (whether a party to the case or not), the court must respond as indicated in this chart for that particular record type. In some instances, the court must not acknowledge or identify the existence of certain nonpublic and sealed records. Those particular record types are identified in Column 2 of the chart by way of the response, "there is no public record."
6. If the court receives form MC 292 from a defendant as provided by MCL 380.1230d and MCL 380.1535a, the court shall forward a copy of the form and information regarding the sentencing not later than seven days after the date of sentencing to the entities listed on the form, even if the court is maintaining the file as a nonpublic record. Pursuant to MCL 380.1535a(8), the court shall provide a certified copy of the judgment of conviction and sentence of a person with a teaching certificate within 7 days after receiving the request and fees under this section from the superintendent of public instruction or after entry of the judgment or other document, whichever is later, even if the court is maintaining the judgment or other document as a nonpublic record.
