Michigan Board of Law Examiners Computer-Based Testing

BASIC PROCEDURES

The Michigan Board of Law Examiners offers applicants the opportunity to use a personal laptop computer for the essay portion of the bar examination through ExamSoft Worldwide, Inc., using software technology called Examplify. This software enables applicants to take examinations using their own laptop computers by blocking access to files, programs, and the Internet during the exam.

Any applicant interested in participating in computer-based testing must check the appropriate box on the *Application to Sit for the Michigan Bar Examination* and provide an e-mail address that he or she will be able to use for several months after the bar examination. The *Application to Sit for the Michigan Bar Examination* is part of the application materials available on the website of the State Bar of Michigan (www.michbar.org). Those applicants taking the examination as re-examinees must check the appropriate box and provide an e-mail address on the *Application for Re-Examination* form that was received as part of the applicant's official bar examination results.

Applicants interested in participating in computer-based testing must read/complete the following steps:

1. Read the Frequently Asked Questions portion of this document to ensure you have a good understanding of the computer-based testing procedures.
2. Read the Release of Responsibility Statement (Release) that is part of this document. By participating in the laptop program you are accepting all of the statements in the Release.
3. Ensure that you have access to a dependable laptop that meets the minimum requirements as discussed in the Laptop and Technical Questions section of the Frequently Asked Questions.
4. Check the appropriate box on the *Application to Sit for the Michigan Bar Examination* and provide an e-mail address that you will be able to use for several months after the bar examination. Those applicants taking the examination as re-examinees must check the appropriate box and provide an e-mail address on the *Application for Re-Examination* form that was received as part of the applicant's official bar examination results.

5. Approximately eight (8) weeks prior to the examination, you will receive an e-mail with specific instructions regarding downloading the Exemplify software.

6. Once you have downloaded and installed the software, you will need to register the software by taking the Mock Exam.

You will NOT be able to test with your laptop computer if you do not successfully download and register the software BEFORE the date of the exam.

7. Once the initial download process is complete, you will download secure examination answer files.

These files are password protected. You cannot open them until the essay day (Tuesday) of the Michigan bar examination.

Please contact ExamSoft at <http://examsoft.com/support> if you have any questions or problems with the downloading of your examination answer files. You may also e-mail support@examsoft.com or call (866) 429-8889.

8. Complete the Mock Exam and take it several times to test your laptop computer. ExamSoft provides for five downloads of the Mock Exam. The Mock Exam upload process will familiarize you with the proper procedures.

If you are using a Windows-based computer, your computer will automatically reboot when you exit both the morning and afternoon sessions. Mac laptops do not require a reboot to enter or exit exam sessions. Once you return to your Desktop, you will be prompted to upload your answer files to the secure web server.

9. Following the completion of the essay portion of the examination on Tuesday, you will be required to upload your examination files. In most cases, once you have left the site and acquired a wireless connection, simply launching Exemplify again will upload all of your answer files.

NOTE: Your essay answers MUST be uploaded by 11:00 p.m. on the essay day of the bar examination (Tuesday). Answers not uploaded by the deadline will NOT be graded. Applicants who took the examination but did not upload an answer file will receive grades of zero (0) for those answers.

SIGNING UP AND REGISTERING FOR COMPUTER-BASED TESTING

What is the Exemplify registration process?

If you have requested to use your laptop computer and provided an e-mail address to the Board of Law Examiners, you will need to register your computer with ExamSoft. It confirms you have downloaded and installed Exemplify, registered your copy of Exemplify, and downloaded your exam(s) so you may use your computer on examination day. This process can ONLY be completed on one computer, so make sure you have a reliable laptop ready before downloading any software.

How do I sign up and register?

Check the appropriate box on the *Application to Sit for the Michigan Bar Examination* and provide an e-mail address that you will be able to use for several months after the bar examination. Registration instructions will be e-mailed to that address.

What e-mail address will the notice for software download and registration be sent to?

date. Do not call the Board of Law Examiners before then to see if your e-mail address was received or if the registration period is open. You may check <http://www.examssoft.com/mibar> to see if the registration period is open.

What happens if I do not receive the e-mail regarding the software download and registration?

The Board of Law Examiners and/or ExamSoft will send out e-mail notices to all applicants who have signed up to use their laptop and who have not yet downloaded the software. These e-mail notices will be sent approximately six (6) weeks before the examination. If you do not receive any of these e-mails, check the following:

- Ask your e-mail service provider if they are blocking SPAM.
- If you are using e-mail client software such as Outlook or Outlook Express, make sure you do not have a SPAM blocker enabled. If you do, you can add the following e-mail address to the list of allowable e-mail addresses: ble-info@courts.mi.gov.
